ABOUT HOMAK

Homak Mfg. was founded in 1947 in Chicago by Sigmund H. Danziger. The name "Homak" was coined after a sign that Sigmund saw on a hat store. Originally a manufacturer of steel kitchen cabinets, Homak expanded its' product offerings in the 1960s to include a separate line of hardware products such as toolboxes, tool cabinets, and other accessories. Homak's hardware line remained strong and was accepted in many major retail businesses of its' time. Following Sigmund's death in 1979, his wife, Gertrude, ran the company for 25 years. Under Gertrude's guidance, Homak extended its product line with automotive, hospital, and sporting goods.

In January of 2005, Homak was acquired by JVA and moved its office to western Pennsylvania. Today, Homak emphasizes on exceeding our customers' expectations and to provide strength and dependability to the consumer.
